DETAILED ACTION

This office action is a response to applicant's amendment submitted August 23, 2007 wherein claims 1 and 3 are cancelled and claim 2 is amended. Claim 2 is pending in the application and is examined on the merits herein.

Examiner's amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claim 2, in the second line of text in the last page of the claims, after the word "denote" and before "NH," change "0" to "O". (This is a change from the number 0 to the letter O)

Reasons for Allowance

In view of the cancellation of claims 1 and 3, all rejections made with respect to those claims in the previous office action are withdrawn.

The rejection of claim 2 under 35 USC 112, second paragraph, for being indefinite is withdrawn in view of applicant's amendment submitted August 23, 2007.

The claimed compounds of general formulas (2) – (10) are adequately described in the specification in such a way as to enable one skilled in the art to make the invention. Guidance for the preparation of the claimed compounds can be found on pages 19-32 of the specification.

The claimed compounds are not taught or fairly suggested by the prior art.

In view of the information discussed above, the indicated subject matter is allowable over the prior art.

Accordingly, Applicant's amendment submitted August 23, 2007 and the accompanying examiner's amendment set forth above are sufficient to remove all rejections made in the prior office action as discussed above and to place the application in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
